

[EN] Documentation

Introduction

Here you will find the documentation for the sixth generation of the dLibra system and the first generation of the dMuseion system. Before working with the documentation, users of the dMuseion should acquaint themselves with the [dodatkowymi informacjami](#)

You can look through that documentation online or [save it as a PDF, HTML, or XML formatted document](#). The export of particular pages is possible by choosing the “Export to PDF” option from menu “Tools” in the upper right corner of the page

Information for users of the dMuseion system dMuseion

This documentation refers to concepts related to the dLibra system. Therefore, in order to interpret it correctly in the context of the dMuseion system, one should remember that:

- a publication in the dLibra system corresponds to a display in the dMuseion system,
- a group publication in the dLibra system corresponds to a display submitted in the dMuseion system,
- a collection in the dLibra system corresponds to a set or themed collection in the dMuseion system,
- a reader/user of websites in the dLibra system corresponds to a visitor in the dMuseion system.
